### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance: The gearing mechanism disclosed by the applicant is both new and non-obvious. The nearest prior art, Yeider (US Patent No. 1804138), teaches a mutilated control gear that drives a forward and reverse gear at different points around its rotation causing a reciprocating motion. Yeider fails to teach all the limitations of claim 1 that include a control gearwheel, a first direction gearwheel, a second direction gear wheel, a bridging gearwheel, and a motion actuating gearwheel. Further, it would not be obvious to one of ordinary skill in the art to modify Yeider to include a bridging gearwheel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher E. Veraa whose telephone number is 571-272-2329. The examiner can normally be reached on Monday through Friday, 7:00 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
